Newcastle University*

Many of Our Worst Fears Did Not Come True

How do we avoid returning to the habits of the pre-pandemic status quo?

What new opportunities should we embrace to meet the current moment?

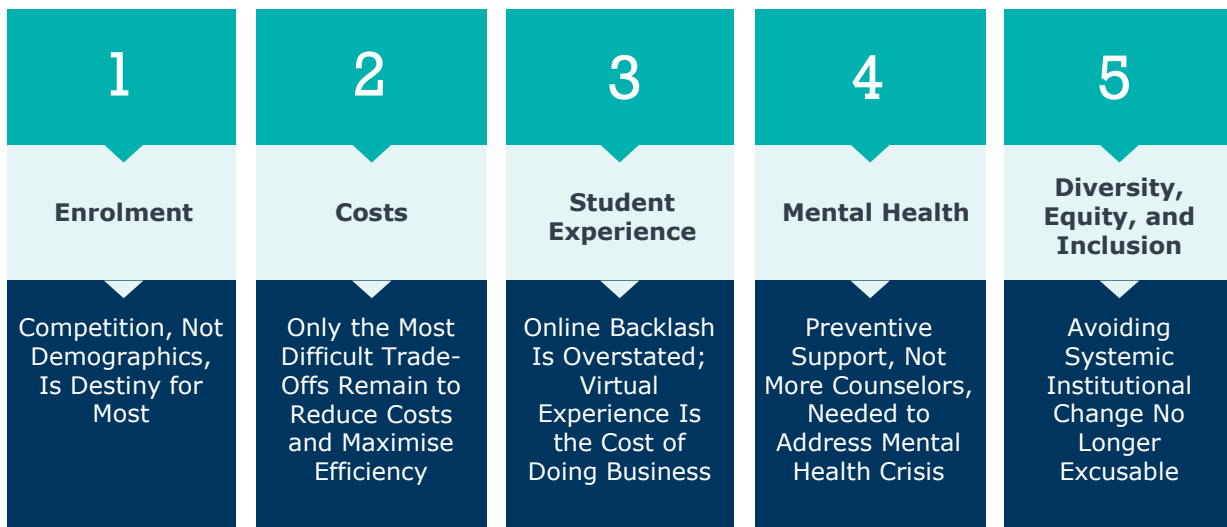

Today's Goals

- Collectively **design and consider the implications** of a university established in the wake of the pandemic
- Step outside your current context to imagine what **bold decisions** would best serve students and staff
- Spark conversation about **prioritising resources** to invest in what makes your institution unique

Our Asks of You

- Vote on the direction of Crowdsourced U across the hour in the 'Polls' tab of the **Interact Sidebar**
- Submit reactions, questions, and ideas throughout in the **Chat Sidebar**
- Keep an open mind, **focusing on 'what ifs'** rather than why something couldn't happen

Five Truths for the Post-Vaccine Institution

EAB

A Unique Approach to Higher Education Research, Strategy, and Support

We Have Line of Sight into Every Aspect of University Operations

Our expertise cuts across all terrains—academic strategy, student experience, finance, estates, fundraising, IT, and more—to support both specific initiatives and overall goals.

14+

years researching operational, academic, and student challenges

We Harness a Global Network of Sector Leaders

Our proprietary research model seeks out replicable solutions from universities around the world, uncovering innovative strategies where you may not have known to look.

2,700+

institutional partners
around the world

We Offer Unmetred Access to Our Research and Resources

Our partnerships provide everyone on your campus unlimited access to the EAB research library, expert consultations, implementation tools, and virtual and in-person events, without per-person fees.

26,000+

campus leaders use EAB research and services in their daily workflows

95% of our partner universities continue to work with us year after year because we provide **extraordinary value**.
