

“I am at my most creative when...”

Time to think

Rested, relaxed, hydrated

In a good space – walking, music on, in the studio

A good problem or challenge

Connecting with other people

Freedom to experiment

“The most productive space for pedagogic innovation in my institution is...”

Through formal development: team days, CPD etc

Collaboration and co-creation between diverse groups: interdisciplinary, staff/student, cross-team working groups

Between or outside formal structures: coffee, canteen, shared spaces
“with funky armchairs”

Small-scale focused conversations (online or in person)

“My institution could better support pedagogic development and innovation by...”

Rewarding and recognising innovation

Encouraging risk/valuing failure/developing entrepreneurship

More structure for creativity: space in workloads, space for collaborative discussion, valuing sharing of practice and joint work across departments

Leadership: strategic direction/focus, staff development, external stimulus, flexibility in delivery (trust)

Creating experimental/open spaces, labs
