

# WHAT DO WE KNOW ABOUT THE CONDITIONS THAT HELP STUDENTS THRIVE?

JIM DICKINSON

By Cibyl & Wonkhe

# It's all about the money

On average,  
students need

**£621** extra

a month to feel  
confident they will  
be able to complete  
their degree

The financial  
gap between what  
students have and  
need is

**89%** larger

than in 2021

Just

**3%**

of today's students  
feel they have  
enough money

blackbullion student money and wellbeing 2024

By Cibyl & Wonkhe

# It's all about the money

of students are  
worried about money

of students  
who worry about  
money say it  
negatively impacts  
their mental health<sup>4</sup>

**3 in 4**

students who  
say money worries  
impact their mental  
health report  
feelings of  
hopelessness

7 in 10 feel isolated<sup>5</sup>

# It's all about the money

**2 in 3**

students say  
not having enough  
money has  
negatively impacted  
their university  
experience

**1 in 3**

students are less  
able to socialise or  
get involved in  
university activities  
as a result of lacking  
money

**1 in 10**

students regret  
their decision to  
go to university

blackbullion student money and wellbeing 2024

By Cibyl & Wonkhe

# It's all about the money

of students are worried about how the rising cost of living will impact their financial future

**Almost 2 in 5 students**

feel pessimistic about what their finances will be like while at university

**But 3 in 5 students**

feel optimistic when thinking ahead to 5+ years after graduating

blackbullion student money and wellbeing 2024

By Cibyl & Wonkhe

# It's all about the money

of students say their university has offered them somewhere warm on campus to study. But the cost of travelling to campus is proving a challenge

**1 in 2**  
**students**

wish their university had provided them with food or supermarket vouchers and subsidised travel over the past 12 months

of students wish their university had provided them with financial education

By Cibyl & Wonkhe

# Why aren't students attending?

1. Health (esp mental health)
2. Paid employment
3. Public transport and/or long journey
4. Teaching quality/format
5. Busy with assignments/independent study

Time is more precious now – students are weighing up best use of their time, and that is often not coming to campus.

# Why not (last 3 missed)

- Combination of a waste of time, depression hitting hard, my physical state being ignored by the university with regards to walking back and forth from campus (it's too painful sometimes).
- Because the other lectures by that staff member had been very dull and about very simple concepts, so I felt I would be better served by just reading the content in my own time.
- Work, I've come from a low social economic family and therefore have to work to afford living in Brighton (expensive city without the London maintenance loan).
- I either felt unmotivated, depressed, unprepared or anxious – scared to be asked questions and have to speak
- I don't need to so I spend the time I have working or taking part in societies for networking
- Sometimes staff are funny about lateness – I commute an hour by car and occasionally would be 10 minutes late, if they were rude in class about it I just wouldn't turn up next time I was late because I don't see the point when it's our money paying them they shouldn't really care.

# Problems with food?

- ONS poll of first-year students in 2021
- 23 percent of students suggested possible issues with food or body image
- 27 percent suggested that they may have an eating disorder

SCOFF questionnaire: five-item measure to assess the possible presence of an eating disorder.

- Do you make yourself sick because you feel uncomfortably full?
- Do you worry you have lost control over how much you eat?
- Have you recently lost more than one stone (6.4kg) in a 3 month period?
- Do you believe yourself to be fat when others say you are too thin?
- Would you say that food dominates your life?

By Cibyl & Wonkhe

# SCOFF

- no sign of possible issue – eating disorder (SCOFF) score of 0
- possible issues with food or body image – eating disorder (SCOFF) score of 1
- possible eating disorder – eating disorder (SCOFF) score of 2 to 5
- NHS 17–23 y/os more than six in ten 17– to 23-year-olds had score of 1 or more

# Students and food

By Cibyl & Wonkhe

# Positivity on support services

**Access and Responsiveness:** Quick response times, accessibility of mental health services both in-person and online

- "Very accessible in person and online, once a meeting is booked there is quick response times."

**Proactive and caring approach:** Outreach and care from services

- "When I was ill a couple of weeks ago the services actually reached out to me even though I didn't reach out to them to just check in to see if I was okay."

**Regular and clear communication:** Updates and information dissemination through emails, social, online

- "We constantly have emails coming through about the help that we can have."

By Cibyl & Wonkhe

# Negativity on support services

Complex Issues: Inappropriate for students with complex mental health issues or neurodivergence, indicating a gap in specialized support

- "I don't think the structure... is particularly great for neurodivergent people or those who are actively mentally ill."

Service quality and empathy: Unhelpful, dismissive, or insensitive interactions with support staff

- "The counsellors at the counselling service make it seem like you are an inconvenience for being there."

Serious issues: Bullying, harassment, suicidal ideation, being mishandled or ignored

- "I reported the bullying and harassment... they reassured me that they'd investigate it and then told me they couldn't."

Communication and Coordination Flaws: Frustration over being directed from one service to another without clear guidance or resolution,

- "They show no empathy, they always direct you to other places without helping you directly."

By Cibyl & Wonkhe

# Negativity on support services

Access and waiting: Long waiting times for counselling services and other forms of support

- "It took them 6 months to get me in contact with their domestic abuse officer and counselling has a long waiting list."

Limited sessions: Restrictions on number of support sessions, students feeling abandoned once those sessions were exhausted

- "The university only offers CBT counselling... you get a limited number of sessions."

Specific needs: Specific student populations, such as mature, working, and medical students, felt neglected or underserved by generic support structures

- "The support for mature students/working students is very poor."

# Reasons for lack of engagement

**7. Perceptions and preferences:** Some lack of interest, sometimes related to transaction attitude to course.

- *“Just not interested in all that”.*

**6. Information and access:** Lack of information or difficulty accessing updates on extracurricular activities, esp on large campuses.

- *“After welcome week it’s all too late”.*

**5. Health and Disability:** Physical injuries or conditions, mental health challenges like stress, depression, and anxiety. Need for inclusive activities that accommodate diverse health requirements and promote well-being.

- *“I can’t access what is on offer due to my health”*

# Reasons for lack of engagement

4. **Financial:** Costs associated with joining activities or travelling to venues. Financial stress, compounded by the need to work part-time jobs, limits resources to engage.

*“Just can’t afford the equipment/uniform/fee/social costs”*

3. **Logistical:** Inconveniences related to time, location, and scheduling conflicts. Clashes with coursework, part-time jobs, or personal responsibilities. Physical distance from events or cost of travel, esp for commuting students.

*“It’s all too far away or hard to get to”*

2. **Social and cultural:** Feelings of isolation or not fitting in, often due to ethnicity, cultural background, age, personal interests. Social dynamics within activities, esp risky behaviours and/or drinking a problem.

*“They are not like me”, “Not a welcoming environment for me”*

# Reasons for lack of engagement

**1. Anxiety:** Fear of joining in, nobody to go with, fear of being judged, fear of large events, disability preventing participation. Closely related to (perception) of welcome week events.

*“Avoid the deep end, I might drown”<sup>1</sup>.*

# Conclusions

- Loneliness and belonging related to health and outcomes
- It is an APP issue – Risk 7
- Time, money and interest matter – but not as much as overwhelm and avoidance of “deep ends”
- Scaffolding for mass/compulsory small/informal is the ultimate goal
- School/faculty/programme events matter a lot (academic societies, SU structures) – because they’re small
- The campus matters a lot – if they are to come less often, make it better (magical) when they’re there
